2. HOW TO OBTAIN WARRANTY SERVICES

If the product fails to meet the requirements of this warranty and TVI Electronics receives the product and all other required information and materials from you before the end of the warranty period, we will repair and/or replace (at TVI Electronics's discretion) the product. To claim under this warranty, you must return the product to TVI Electronics with proof of purchase. You will be responsible for all shipping and insurance charges. You assume all risk of loss and/or damage to the product until it arrives to TVI Electronics. Damage or loss as a result of improper packaging may invalidate both the RMA and the warranty. If TVI Electronics reasonably determines that the product has not failed to meet the standards of the warranty, you will be liable for the cost of return shipment to you. TVI Electronics may require payment of such costs before returning the product to you, and the risk of loss and/or damage will remain with you notwithstanding TVI Electronics's possession of the Product.

Should you elect to return the product for any reason during the warranty period, you must follow the guidelines below.

Expired RMA's will not be accepted and refunds will not be allowed. Any

parts returned to TVI Electronics without a valid RMA # may result in a restock fee of up to 40% or be returned to the customer at their expense.

2.3. You must deliver the product insured and freight prepaid in the original package or package with equal degree of protection as instructed by customer service department. An analysis report is required, explaining the problem with each unit. Download and complete the [Returned Goods Form](#) and enclose with your return. No work will be performed until your approval on all the charges is confirmed. TVI Electronics owns all parts removed from repaired products. TVI Electronics uses new and/or reconditioned parts made by various manufacturers in performing limited warranty repairs and building replacement products.
